

### Positive COVID-19 Case or Exposure

October 14, 2020

The North Central District Health Department in collaboration with Niobrara Public Schools has been notified that a positive COVID-19 case has occurred at the Niobrara Elementary School.

North Central District Health Department and Niobrara Public Schools has requested the case self-isolate. *Their family and other close contacts are also being asked to self-quarantine (remain at home).* Parents, guardians, or community members that have been identified as have being in close contact (within 6 feet for greater 15 mins) with the case have been notified and asked to self-quarantine.

Due to protected health information, small population sizes of district communities and schools, North Central District Health Department and Niobrara Public Schools will not be releasing the identity of the case or identifying factors such as grade level, if applicable. Pressures from community members and leaders for North Central District Health Department or Niobrara Public Schools to communicate and identify the case will not be tolerated.
